

HHP New Releases: May 2017

Cummins ISX In-Frame Kits Featuring the New Carbon Scraper Design

- ✓ Decrease Oil Consumption
- ✓ Increase Oil Filter Flow
- ✓ Decrease DPF Regeneration

Here's How it Works:

Engine Kits include the APR (Anti-Polishing Ring) Liner, which feature a removable, integrated carbon scraper ring at the top of the cylinder liner (See Illustration 2). This liner prevents carbon from contacting the cylinder walls during operation, increasing overall efficiency.

HHP Items: P254284, P254285, P254286

Engine Kits Include:

- Cylinder Liner Kits
- 1-piece Low Ring Pack Pistons
- Premium Piston Rings
- Upper Gasket Set
- Connecting Rod Bearings
- Main Bearings

Cummins ISX/QSX Exhaust Hardware Kits

Includes cap screws and spacers for mounting the exhaust manifold, & high-temp, non-magnetic turbocharger mountings and studs.

HHP Items: P254718,
P254719

Caterpillar C15/3406E Reman Fuel Injectors

Includes New Trim Code for increased efficiency, 100% surface lapping of critical components, & new installation o-rings.

HHP Items: P016881R,
P016844R, P253280R,
P062237R, P016876R,
P253281R

Oversized Injector Sleeves & Bottom O-Ring Seal

Salvage Cylinder Heads out of spec in the injection tube bore, saving the cost of a full replacement. For Caterpillar 3406E, C15, C16, & C18.

HHP Items: P005360, P254720
